Date:- 22/05/2023

Conduction Duration: Two Hrs.

Venue: MBA I Class room

Resource Person:

Mr. Nitin Patil, PROFITMART

Coordinator: Prof. Neha Wankhede

Objective:

1. *Educate student about the fundamentals of the stock market and its role in the economy.*

2. *To provide an understanding of fundamental analysis and its importance in making informed investment decisions.*

About The Program:

Mr. Nitin Patil began the lecture by providing a comprehensive overview of the stock market and its role in the economy. He explained the basic concepts of stocks, shares,

and exchanges, ensuring that the audience had a solid foundation of understanding.

The speaker delved into the importance of fundamental analysis in stock market investing. He discussed various factors that influence stock prices, including company financials, industry trends, and economic indicators. Mr. Patil emphasized the significance of thorough research and analysis before making i nvestment decisions.

Another crucial aspect covered during the lecture was technical analysis. Mr. Nitin Patil explained different chart patterns, indicators, and tools used in technical analysis to identify potential trends and entry/exit points. He demonstrated how technical analysis can complement fundamental analysis in making informed investment choices.

Outcome:

1. *Increased knowledge and understanding of the stock market and its dynamics among the students.*

2. *Familiarity with fundamental analysis techniques and the ability to analyze company financials, industry trends, and economic indicators*
