3) Gajanan Kadam (Production Manager)  
4) Bharat Wankhede (H.R. Manager)

**Coordinators** :- Prof.Manisha Pagar & Dr. Tushar Savle

**About The Visit: -**

Ram Bandhu Factory, located in Talegaon, Nashik, is a leading manufacturing facility known for its renowned brands, Ram Bandhu and Temptin'. They produce a wide range of culinary delights and condiments, including ground spices, blended spices, pickles, papads, hing, snacks, ketchup, sauces, pastes, and chutneys.

**Activities and Observations:**

The Department of Management Studies organized an industrial visit to Ram Bandhu's Talegaon plant on the specified date. The visit lasted for 2.5 hours and began with a warm welcome from the industrial personnel mentioned above. The students were given a brief overview of the company's history, vision, mission, and product portfolio. They were then guided on a tour of the production floor, showcasing the machinery and quality control techniques employed at the facility.

Furthermore, the students had the opportunity to interact with the operation management and quality control departments. The discussion focused on supply chain management, and a presentation on automation, robotics, and artificial intelligence used in the factory was provided. The Ram Bandhu team also highlighted their commitment to environmental sustainability, showcasing their solar energy plant and sewage water treatment facility.

**Conclusion:**

The industrial visit to Ram Bandhu's Talegaon plant proved to be highly informative for the management students.

They gained practical exposure to manufacturing processes, operations management, technological advancements, quality control measures, safety protocols, and environmentally friendly initiatives. The visit enriched their understanding of their respective specializations and prepared them for future roles in their chosen fields. It also emphasized the importance of environmental sustainability in the manufacturing industry.

**Outcome: -**

1. Students gained practical knowledge about manufacturing processes in a real-world setting.
2. They witnessed the application of technological advancements such as automation and robotics in the manufacturing industry.
3. Students developed an awareness of the importance of environmental sustainability through the company's eco-friendly initiatives.
