About The Visit: - MBA 1st year students with various auto vehicle industry officials and auto dealers at the Auto and Logistics Expo resulted in a significant enhancement of their marketing skills, communication skills, coordination skills, and industry knowledge. The practical exposure and interactions with industry professionals provided valuable insights and learning opportunities, contributing to the students' personal and professional growth. These experiences will serve as a strong foundation for their future careers in the automotive and logistics sectors.

Outcome: -

1. Enriched industry knowledge by exploring different types of vehicles, features, and innovations.
2. Obtained valuable experience in event management and coordination within the automotive industry.
3. Developed a better understanding of market competition and the importance of staying updated with industry developments.
