- 1. To create awareness and understanding about the newly implemented National Education Policy and its key provisions related to Industry Institute Linkage among educators, administrators, policymakers, and other stakeholders in the education sector.***

- 2. To foster collaboration and partnerships between educational institutions (schools, colleges, universities, vocational training centers) and industries for the exchange of knowledge, expertise, and resources, leading to the development of industry-relevant curricula and skill-oriented training programs.**
- 3. To promote research and development activities that bridge the gap between academia and industry, encouraging joint projects, internships, and placements to enhance students' practical exposure and skill.**

About The Program:

Department of Management Studies had organised Two days National Seminar on, **“Implementation of New Education Policy: Industry Institute Linkage”** on 21st & 22nd February 2023. Dr Rakesh Patil, Head MBA Welcomed all the Guests. Dr Milind Patil, Principal SITRC felicitated all the Guests. The First Speaker Dr. Anjali Kulkarni said that By forging strong collaborations between academia and industry, The Institute can equip their students with real-world skills, making them job-ready and future-proof. These partnerships are a crucial bridge that will not only enhance the employability of the students but also drive innovation and research to address the challenges of tomorrow. She also said Let us embrace this opportunity to transform education and create a dynamic learning ecosystem that thrives on the synergy between education and industry. She ended her speech with saying that the Industry and Institute together can shape a brighter future for the students and nation also.

The second speaker Dr. Medha Saykhedkar said that the NEP 2020 emphasizes curriculum reform to align educational programs with the ever-evolving needs of industries. The analysis explores how the policy's focus on skill development, flexibility, and multidisciplinary education will empower students to meet the demands of a rapidly changing job market. She also said that by fostering a close partnership between academia and industry, the NEP 2020 aims to equip learners with relevant knowledge and practical expertise to thrive in the 21st-century workforce. This is how day I Ended

On Day II we had review of Day I , the first speaker for day was Mr. Sachin Usha Vilas Joshi talked about Vocational education and Training by keeping in mind the vision of NEP 2020. Mrs. Vijaya Laxmi Manerikar shared her views on Entrepreneurship Education in the New National Education Policy. We also had some paper presentation session and in the end

Vishal Poddar outlined the areas on which an Individual should work so as to develop the leadership skills & qualities. The Two days National Seminar concluded with Valedictory function & Certificate distribution to participants

Outcome:

- 1. Research Scholar, Academicians & Students were able to use the platform of seminar to present their research work***
- 2. Participants were able to upgrade their Knowledge***
- 3. Participants gain a comprehensive understanding of the key provisions of the New Education Policy related to Industry Institute Linkage, fostering greater awareness and knowledge among educators, policymakers, and stakeholders in the education sector***

About Department of Management Studies (MBA):

Department of Management Studies (MBA) was established in September 2009 under Sandi Foundation's Sandi Institute of Technology & Research Centre, Nashik. Since its inception, it has successfully expanded itself and grown in terms of multiple parameters. Winner of various awards and rankings the institute has risen to be a benchmark for academic excellence and best practices. The Department has received many accolades from various National and International organizations, some of the notable recognitions received are the Devang Mehta Best B-School Award in the year 2012, National Education Leadership Awards from ET NOW in the year 2013, BERG Awards for Education, Singapore. Additionally, the institute is very highly rated by many of the best rating agencies of India as it was ranked 92nd amongst B-school and Management Institutes in India and the Best Institute in North Maharashtra Region in 2011 by Silicon India. The Institute was also rated among the top 100 B Schools of India by The Week.

The institute has been able to achieve excellence in all concerned domains, by adopting unique pedagogy and course delivery methodology, sets itself apart from other institutes and has become a benchmark for other institute to follow. The institute has developed core competencies and practices that set it apart from others institutes. Some of the unique practices are a)Self-Developed Case Studies b)Activity Based Learning c)Project Based Learning d)Industry - Institute Association f)Association with Professional Bodies in addition to Traditional Teaching- Learning Methodology.

Self-Developed Case Studies: Self-Developed Case Studies are case studies developed by students. The institute has not only adopted case study methodology as one of the Teaching-Learning methodologies but has gone a step further by writing its case studies developed, written, edited and published by students.

Activity-Based Learning: Various students driven activities are organized by the Department such as UDAAN- National Level Management Fest, OJT, CSR, Cricket League and the Battlefield. All these activities help students in developing their skills, competence and prepare them to take on the challenges of the business world. However, the Battlefield has been an activity that has been particularly very successful in terms of the learning & the response of the students. Hence it has been adopted as a unique teaching pedagogy by the Department of Management Studies. The Department of Management Studies is a blend of experience and expertise, headed by one of the ablest and experienced Management Professional. The team comprises of expertise & experience from various domains of management like Marketing, Finance, Human Resource, Operations, Industry Relations, General Management, Research & Entrepreneurship Development. The team is well-balanced and adds huge value to the organization and is committed to the cause of enhancing skills, attitude & knowledge of the students.

About Seminar:

The National Education Policy (NEP) 2020, which was recently approved by the Indian government, aims to overhaul the country's education system and make it more globally competitive. One key aspect of the NEP is the emphasis on industry-institute linkage, which is intended to better align education with the needs of the workforce and the economy. The implementation of the NEP through industry-institute linkage would involve a number of initiatives and changes, such as:

Increased collaboration between educational institutions and industry partners. This would involve setting up industry-led centres of excellence, internships, and apprenticeships for students, as well as joint research and development projects.

Entrepreneurship education: The NEP also calls for increased emphasis on entrepreneurship education and innovation, with the goal of creating a culture of innovation and start-ups in the country. Industry involvement in teacher education: The NEP calls for industry experts to be involved in the design and delivery of teacher education programs.

The NEP's emphasis on industry-institute linkage aims to ensure that the education system is better aligned with the needs of the workforce and the economy, and to promote the development of the skills needed to succeed in the 21st century.

Objective Seminar:

To explore best practices and models for collaboration between educational institutions and industry partners, including joint research and development, internships, and apprenticeships. To share and exchange information on the implementation of curriculum reform and vocational education and training in alignment with industry needs.

To identify the challenges and opportunities of entrepreneurship education and innovation in the context of NEP 2020.
