Accredited with “A” grade by NAAC With CGPA Score of 3.11

NBA Accredited for Computer & Mechanical Engineering(UG Course) w.e.f. 2023-24 to 2025-26

The training was structured in a practical and application-based format to ensure students gained real-time exposure to financial analysis, corporate finance practices, and accounting software utilization.

The Financial Modelling (2 Days), Investment Banking (2 Days), and Tally (5 Days) training program was successfully conducted till 28th February 2026 as per the scheduled timeline. The Financial Modelling module focused on the structure and applicability of financial models, covering revenue drivers, working capital, profitability, balance sheet and cash flow preparation, interlinking of financial statements, and ratio analysis through hands-on Excel-based case studies. The Investment Banking module provided insights into fundraising (angel investment to IPO), valuation methods, mergers & acquisitions, leveraged buyouts, restructuring, project financing, and risk-return evaluation, enabling students to understand real-world corporate finance practices.

The Tally module emphasized practical accounting and industry compliance, including purchase and sales entries with GST & TDS, stock management, P&L and balance sheet preparation, cash, bank and journal entries, along with financial reporting. The sessions were highly practical in nature, ensuring active student participation and guided hands-on learning aligned with industry requirements.

Overall, the program received strong engagement and positive feedback from students. Participants developed practical financial modelling skills in Excel, gained exposure to investment banking and valuation techniques, and acquired hands-on accounting experience in Tally with GST & TDS compliance, thereby enhancing their employability and industry readiness.

The training successfully bridged the gap between academic curriculum and practical financial applications.

Outcome:

The training program enabled students to develop practical competency in financial modelling using Excel, including preparation and interlinking of P&L, Balance Sheet, and Cash Flow statements. Participants gained conceptual clarity on investment banking processes such as fundraising, valuation techniques, mergers & acquisitions, and corporate restructuring. Additionally, students acquired hands-on accounting proficiency in Tally with GST and TDS compliance. Overall, the program significantly enhanced their analytical abilities, technical skills, and industry readiness, thereby strengthening their employability in core Finance and Accounting roles.
